About Us

Our international team assists startups and established HealthTech companies in entering the **European and the North American market**. We also assist in building strong consortiums for EU funded projects, support the procurement of large tenders and professionally managing large international health-tech projects.

Thanks to decades of **experience** of the company board, led by the CEO Stefan Phillips, our customers benefit from a wide range of services, from **market entry evaluation, due diligence** with investors, establishment of new synergies with **technical and clinical partners** and sustaining in international markets.
